

To Whom It May Concern,

TVC Canada, a division of WESCO Distribution Canada LP, has been working with Michele and the team at Superior Packaging over the past year.

During this period, they have provided kit assembly, bagging and packaging services for one of our largest broadband service provider customers.

We have found Superior Packaging to be very responsive to our requests, particularly those with tight timelines. Furthermore, our experience has been that the quality of this work has been consistently outstanding.

As such, I would highly recommend Superior Packaging for all of your product assembly and customized packaging service needs.

Sincerely,

Tim Emoff
